BUILDING

Located at number 46 Gran Vía, this building by Pedro Muguruza has the honor of being one of the tallest buildings in Madrid.

It is a local emblem of American functional skyscraper architecture and the first of those built in exposed brick on this street.

es que no tienes que trabajar en Madrid.

VENUE DETAILS

On the second, third and fourth floors of the Palacio de la Prensa is Gran Vía Venue, a large space for events that is divided into three exclusive areas for the use of events.

Gran Vía Venue has 940 m2 distributed in different environments, which combine a modern style with classic touches typical of the building. In addition, it offers a spectacular view of the Plaza de Callao and Madrid's Gran Vía thanks to its large balconies and tall windows, making it a unique and luminous space in the center of the capital.

ABOUT US

We organize all types of events and corporate actions, adapting the space to the needs and desires of our clients' proposals.

We offer premium advice, including comprehensive support throughout the development and execution of the same.

This architectural floor plan shows a semi-circular staircase with a central landing. The staircase is divided into three sections by two vertical walls. The dimensions are as follows:

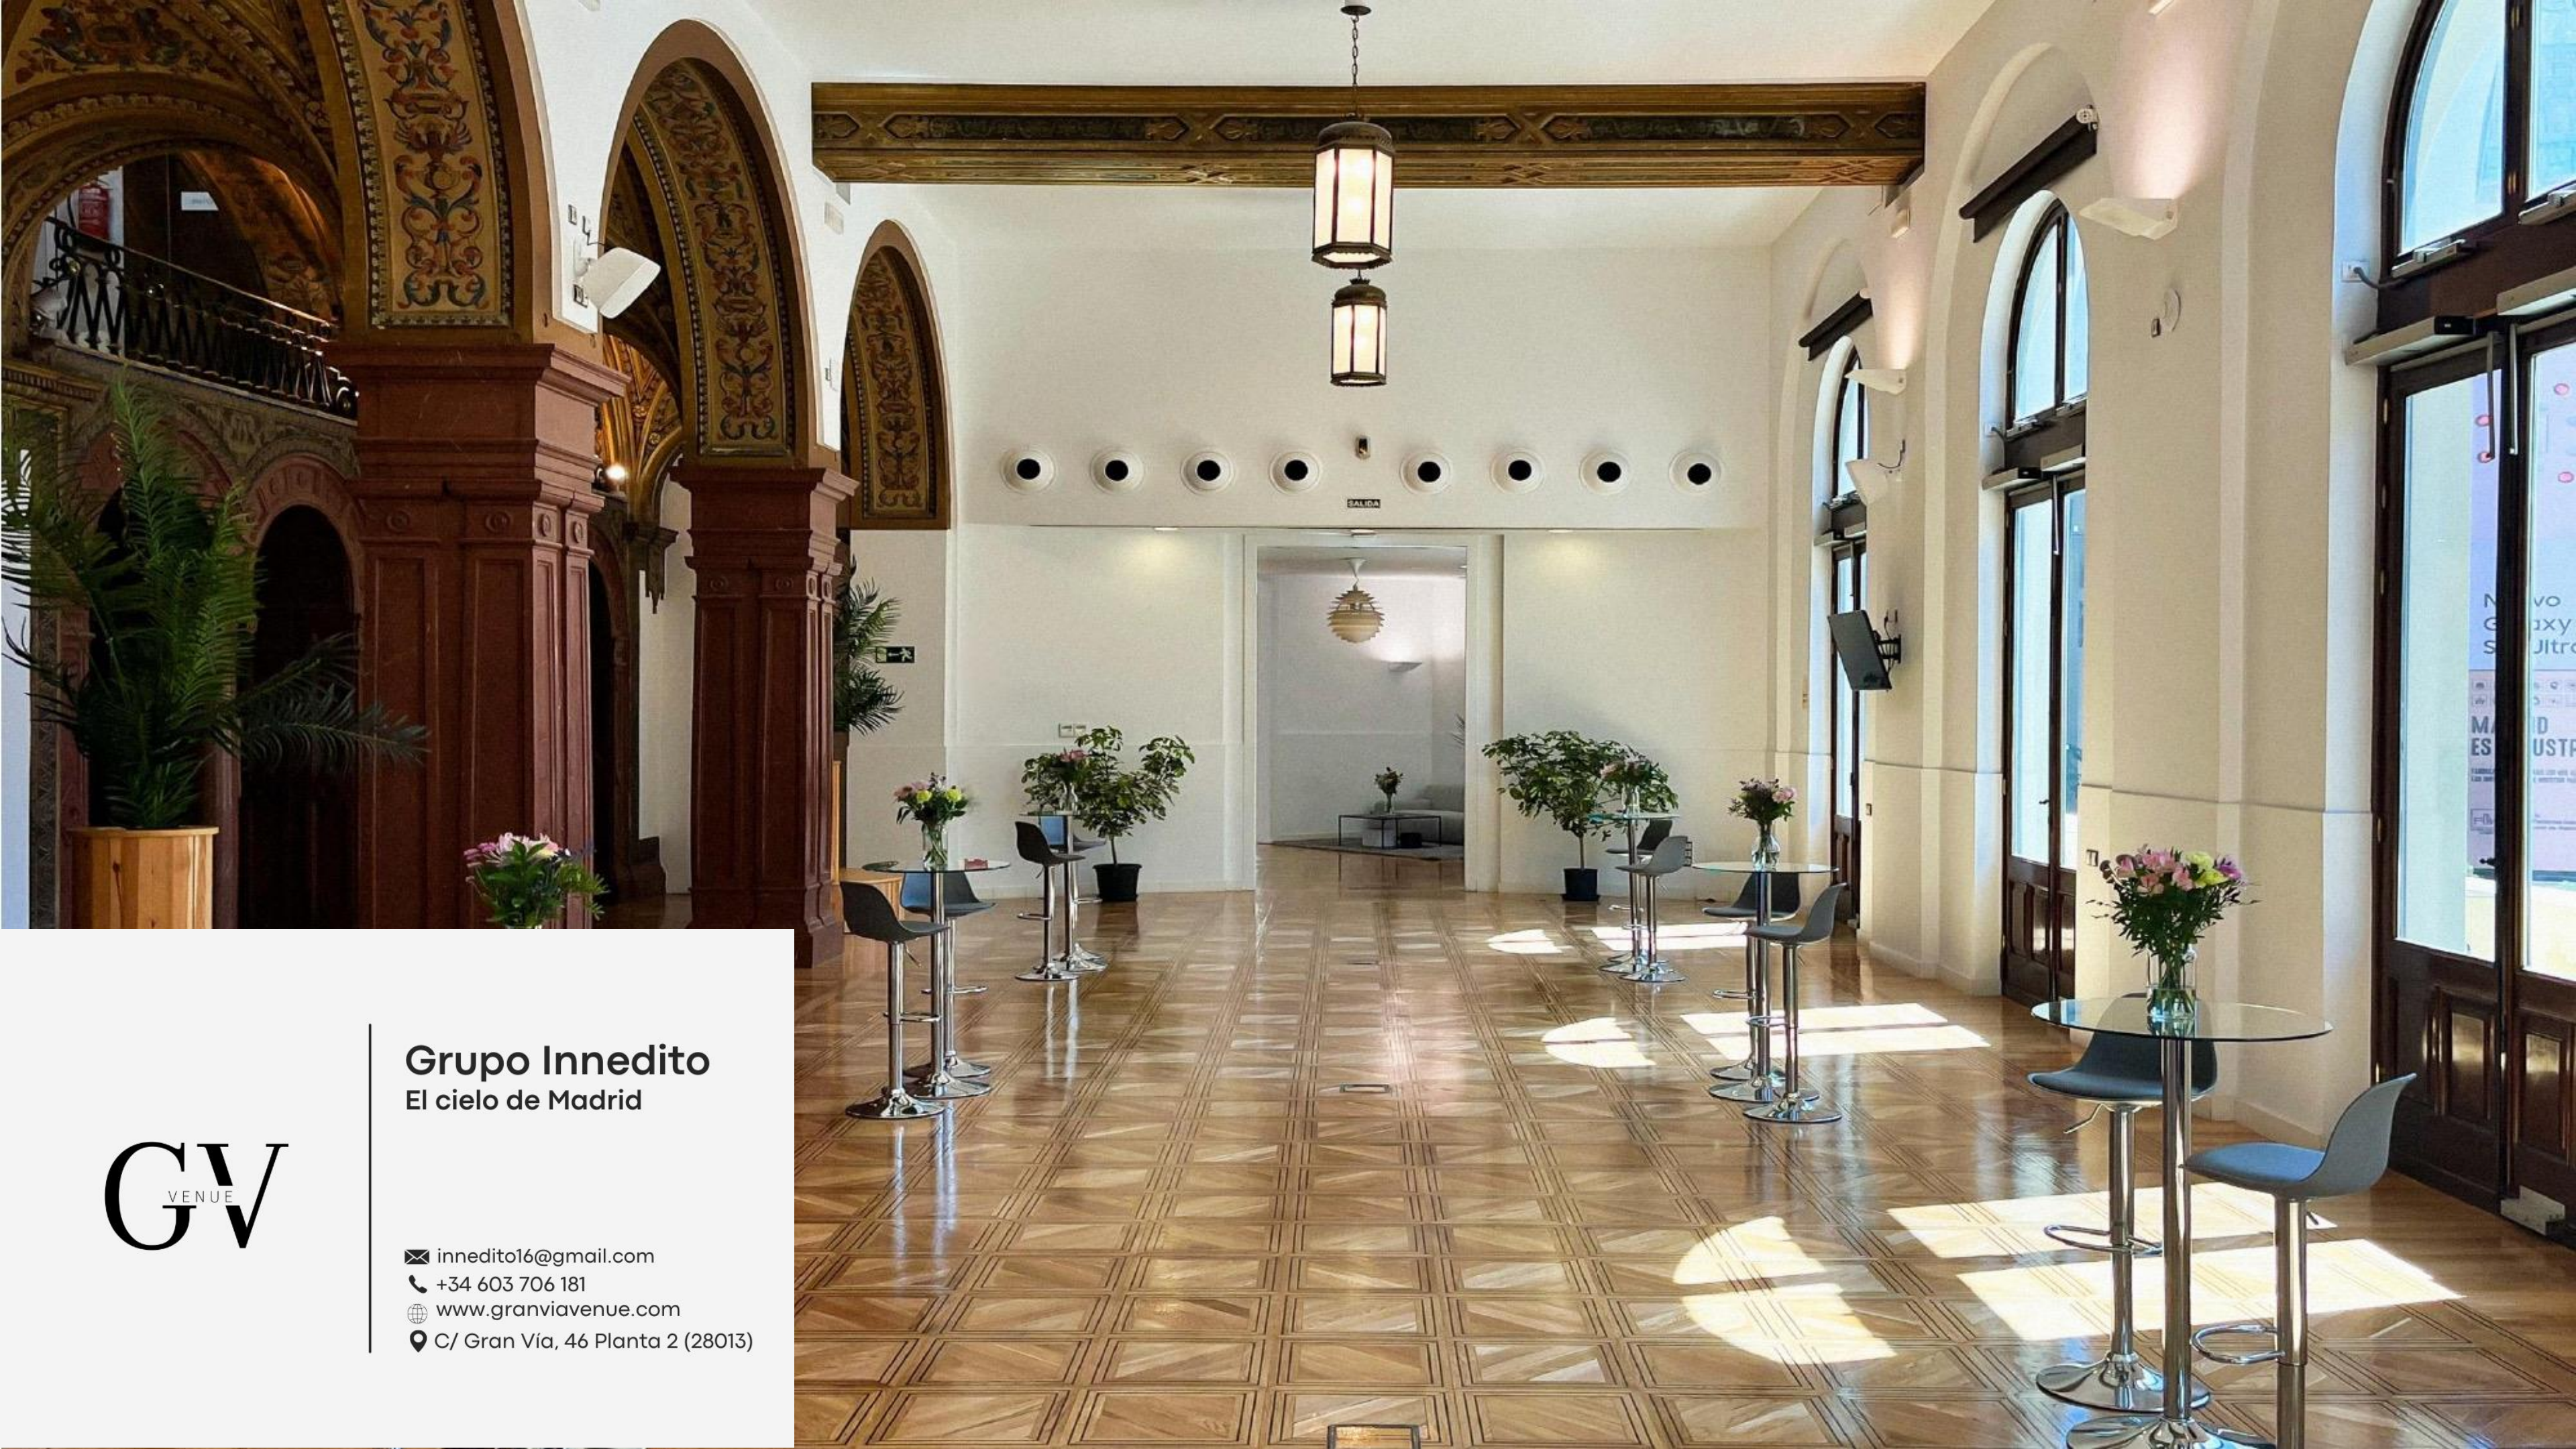

- Left section width: 4.47
- Middle section width: 4.31
- Right section width: 4.51
- Left section depth: 1.72
- Right section depth: 2.97

The staircase features a central landing with a rounded rectangular opening. The stairs are shown with curved lines indicating the semi-circular shape. Dashed lines indicate the continuation of the walls and the landing area.
